

**Thursday Chapter meeting
June 20, 2024, evening lecture 6-9 pm**

Dowsing for Miracles

We often hear that we all are Magicians!

Who are Magicians, then, and why can dowsters even begin to aspire to this title?

Let's meet at the Finger Lake Chapter gathering on June 20, 2024, to discuss further how every dowser has the potential to become a Magician and what the requirements are to reach that level.

- **What is needed to be a Magician and a dowser?**
- **When and how do magicians/dowers operate?**
- **How can dowsing assist us in creating a Magical World around us, and how can it participate in our spiritual development?**
- **Why do Therapeutic Pendulums serve us better in creating everything we want, need, and desire?**
- **How can we increase our skills to obtain a trustworthy level of dowsing?**
- **What tools can possibly help us achieve our goals and reach higher in our potential, life performances, healing, and spiritual development?**

The Summer Equinox takes place just before our meeting!

Let's use this sacred energy to unlock the secrets of Scientific Dowsing in the context of the metaphysical aspect of our reality!

You will leave this meeting with a better understanding of your abilities and information on how to successfully use your tools and apply your skills to improve your and others' lives permanently!

Friday, June 21, 2024, 6:30 - 9 pm
Evening lecture (\$45)

Sickness and Health - How Dowsing Can Help?

In today's life, it is not enough to "just wave the pendulum". The Aquarius Era is most of all about proper knowledge of "behind the scenes" processes.

Let's begin with the simple acknowledgment that even for quite advanced dowzers, our world and dowsing still hold many questions, and the higher we go in our spiritual development, the more questions arise, and the more doubts appear.

- **How can we solve those problems using complex Sacred Geometry-based pendulums?**
- **How can he heal at a time when people need healing most?**

There are conflicting theories: one states that it depends on the strength of one's immune system. Another blames family history, which shows that more of our health predicaments are hereditary. The last one claims (after Nikola Tesla) that it is all about vibrations, frequencies, and energy.

In Medical Dowsing, we focus on the third option - that healing occurs when an energetically imbalanced body part can return to a healthy, balanced state by applying specific vibrations. Therapists deliver those vibrations using Therapeutic pendulums, as mentioned earlier.

- **How can the root cause of specific health conditions be effectively found?**
- **Why does the sick and healthy body operate differently at every level of our existence?**
- **The proper and most advanced application of the White and Gold Light pendulums in therapy.**

Let's build the common understanding of sickness and health, lack and luck, poverty and prosperity. Everything is so close to each other, yet so far to achieve for many! Let's break the ice and make it happen!

One Day Course - June 22, 2024

Releasing Past Lives Vows With Dowsing and Diabetes (\$80)

Morning session (9:30 am - 1 pm)

Releasing Past Lives Vows With Dowsing (\$45)

The vows from the past sometimes "hunt" us for generations. Why?

- Are you aware that, mostly in our subconscious, we carry at least a few vows from the past that limit our abilities in our current lifetime?
- Regarding those vows, have you ever considered why you have trouble making a significant amount of money, nurturing your relationships, or simply enjoying life to the fullest?
- How many vows have you consciously taken in this life, and are you aware of their significance for your infinite existence?
- Why are they "in come state" for a few lifetimes and then, seemingly without an apparent reason, become active in a particular life?
- Who and when decides that this particular predicament will appear in a specific lifetime?
- Is it true that the vows we took hundreds of years ago appear once in a while, in a particular lifetime, or are they with us all the time but with different intensities?

Before we meet to learn and practice removing those vows, please **prepare a list of your life challenges, predicaments and hardships** so you will have a list of issues to work on during and after our gathering.

Alicja will answer your questions and give you the protocol for neutralizing those vows so they will not harm you anyone, or - if the time is right - you will eliminate them entirely from your timeline!

Afternoon session (1:30 pm - 5 pm)

Diabetes (\$45)

Western medicine's description of diabetes says that "it is a chronic, metabolic disease characterized by elevated blood glucose (or blood sugar) levels, which leads to severe damage to the heart, blood vessels, eyes, kidneys, and nerves over time."

Let's begin with some quite unfortunate statistics:

In 2021, 38.4 million Americans, or 11.6% of the population, had diabetes, among which 29.7 million had been diagnosed and 8.7 million were undiagnosed.

Over 537 million adults aged 20-79 worldwide are currently living with diabetes, accounting for 10.5% of the population in this age range.

In the past three decades, the prevalence of type 2 diabetes has risen dramatically in countries of all income levels.

That's the general overview of the situation according to official sources such as WHO.
What can we do to prevent it on a personal (and our clients, if you are a therapist) level?

Since we know that particular emotions are behind all our diseases and health conditions, let's dedicate our meeting to learning about them.

- **What emotion creates increased or decreased levels of sugar in our blood?**
- **How can we decode those emotions, balance the sugar, and heal the body?**
- **Why are there people with and without diabetes in the same family?**

Let's begin to de-mystify the growth of diabetes in today's world by understanding its causes, effects and cures...

Have your pendulum ready - we will check and begin to balance (if needed) the sugar level.
