

DOWSING **The ART of the Ancient Wisdom** **&** **a Modern, Cutting Edge SCIENCE**

Keynote speech - Saturday, September 5, 2020

For generations, many people have dedicated their lives to enhancing mans knowledge and abilities to live better lives, and achieve a higher level of understanding. Those, who were successful in their endeavours, were usually focused on improving both mind and spirit. Today we focus on a wholistic approach to achieve such improvement.

As stated by St. Germain, one of the most famous metaphysical scholars in his field, "Before you will become true alchemist, you must become Spiritual Alchemist, so worldly gain will mean nothing to you".

Likewise, in the same vain, but turned around, Max Plank, one of the most admired scientists of all time, called the Father of Quantum Physics, said: "Anybody, who has been seriously engaged in scientific work of any kind realizes that over the entrance to the gates of the temple of science are written the words: 'Ye must have faith'".

Alicja will share how we can interconnect the amazing discoveries of modern Quantum Physics with the ancient wisdom from Atlantis through Egypt and Roman Empire to today's North America. During this very visual lecture, you will learn about knowledge that is not so readily available, and which will hopefully forever enrich your life. Topics such as:

- How the success or failure of dowsing is affected by the role the brain plays
- In which situations Is the brain our ally or our enemy?
- How to increase both our success in life & our accuracy in dowsing.

We will then look into the human brain and psyche to find common threads for success:

- in dowsing
- in relationships
- in life.

Join us for an evening of knowing how to better play the game of life, and how this can help take us from a position of victim to victor!

Rev. Alicja Aratyn, M. Eng., DM was born in Poland and for last 30 years lives in Toronto, Canada. Her scientific background helps her to bridge science and metaphysics, so for years she shares with audiences around the world true power of our mind-body-spirit trinity.
