- **Is Dowsing one of the easiest and fastest ways to increase our vibrations?**
- **Are all pendulums equal in being beneficial to this?**
- **How can we progress in the most efficient way?**

During the Piscean Age many wondered how to find a shortcut to their spiritual growth and achieve the level of awareness, which would allow them to communicate with higher dimensions. But the Era of Pisces was a relatively slow one. In preceding Pisces eras the knowledge had always been passed from generation to generation but, at a point just before the start of the Age of Pisces this knowledge vanished. Why was this?

Let's meet for an evening of learning of rediscovery of our dowsing ancestors over this challenging age. We will look at what we have available to us at the dawn of the Silver Era of Aquarius? Being an Era of silver, and we know that silver is a quick metal so things will happen a lot faster than previously, everything is and will happen a lot faster, as we are already experiencing. However, the Vibration of Gold with its golden light and holding ability can still serve or assist us in our expansion. Dowsing tools operating on this vibration can support our efforts to develop in a stable holding manner, allowing us to go further, higher and be better.

We will look at ancient history and the latest cutting-edge scientific knowledge to connect the newest dowsing achievements with ancient wisdom!
Will talk about bridging science and spirituality and it won't be boring!!!
